Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The information disclosure statement (IDS) submitted on 5/13/02 is acknowledged and considered.

Specification

2. The abstract of the disclosure is objected to because it contains phrases which can be implied. "The present invention" in line 1, "of the present invention" in line 3-5 should be deleted. Correction is required. See MPEP § 608.01(b).

Claim Objections

3. Claim 6 is objected to because of the following informalities: line 2, "at least one..." should be "the at least one". Appropriate correction is required.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claim 10 is rejected under 35 U.S.C. 101 because body part is claimed as part of the system.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3731

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 1-4, 26 and 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Kujawski (6,306,164). Kujawski discloses bypass prosthesis (30,32) and a first prosthesis (10) including a graft (20) and a stent (18) wherein the first prosthesis including extending struts (see element 18, figure 1). Kujawski also discloses a method and delivery system as claimed (see figures 4 and 9)

8. Claims 1, 3-5, 9, 11, 12, 13-15, 24 and 26-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Pierce (6,152,956). In regard to claims 1, 3-5, 9, 11, 13-15, 26-28, Pierce discloses a by pass prosthesis and a first prosthesis including a first matrix having extending struts (50), a second matrix (40) and a distal portion (42) configured to bridge a section of an artery. In regard to claim 13-15, wherein the first matrix is configured to anchor the prosthesis in an artery (fig. 5) and the distal portion (42) comprising straight struts connecting the first and second matrix.

In regard to claims 12, Examiner considers a first prosthesis including first (70) and second matrix (50), a graft (44) engaging the second matrix and the bypass prosthesis including graft (44) and element (52) together.

Allowable Subject Matter

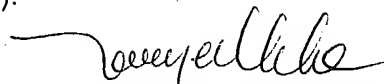

9. Claims 6-8, 16-23 and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
